Universal TAWS Installations – Gulfstream  
1159 series  
STC ST01121LA  
Battery shop – test, repair, sales

## AIRCRAFT MAINTENANCE

KaiserAir, at OAK, is the largest FAR145-certified repair station in Northern California. We've expanded our repair station to STS to better serve our clients.

For over 50 years, we've provided maintenance services only to those whose aircraft we managed. Now we're able to offer our services to you, whatever business jet you fly — and whether you need general maintenance, repair, testing or troubleshooting of your aircraft airframe, systems and power plant.

### AIRFRAME INSPECTIONS:

- ANNUAL
- ROUTINE
- RECURRENT
- PREVENTIVE
- HEAVY
- PHASE CHECKS

---

### SYSTEMS:

- FLIGHT CONTROLS
- LANDING GEAR
- FUEL
- LIGHTING
- PNEUMATICS
- HYDRAULICS

---

### POWER PLANT:

- REMOVAL & REPLACEMENT
- INSPECTION
- TESTS

## AVIONICS

KaiserAir's avionics services include installation of EGPWS, TAWS, TCAS, along with checks of the pitotstatic and transponder systems and RVSM recertification.

Our experienced avionics technicians can also troubleshoot, repair and test the electro/hydraulic, electro/pneumatic and electro/mechanical systems on your aircraft.

### AVIONICS INSTALLATIONS:

- EGPWS
- TAWS
- TCAS
- 8.33mhz/fm immunity
- GPS
- AFIS
- FMS

### PITOTSTATIC:

- 91.411 CHECK
- RVSM RECERTIFICATION

### TRANSPONDER:

- 91.413 CHECK

## WHEEL & BRAKE

KaiserAir is the only business jet management company in Northern California that maintains its own wheel & brake shop, serving all business and most commercial aircraft.

For over fifteen years, under the direction of master craftsman Cliff Lofthouse, we've enjoyed a loyal nationwide following. Wheels that come out of Cliff's shop set the standard for the entire industry – ship us one today and see why.

DISMANTLING

STRIPPING & REPAINTING

NON-DESTRUCTIVE

TESTING (NDT):

- EDDY CURRENT
- ULTRASONIC
- MAGNETIC PARTICLE
- LIQUID PENETRANT

## NI-CAD BATTERY SERVICE

“Find a need and fill it” was a business principle of our founder, Henry J. Kaiser.

In Northern California a good battery shop will provide a much needed service for our clients. We know Henry J. would approve.

For over 50 years, we have provided maintenance services only to those aircraft we managed. Now we’re able to offer our services to you – whether you need repairs, inspections, a main ship battery or an emergency power pack deep cycle.

## UPHOLSTERY

KaiserAir knows corporate aviation from the inside out. We understand that passenger comfort and a smart-looking aircraft are crucial to you. That's why we maintain the only corporate aircraft upholstery facility in Northern California.

From one-day jobs like minor seat repairs, all the way through to four-week-turnaround complete cabin refurbishments, KaiserAir can serve your upholstery needs.

## CLEAN & DETAIL

KaiserAir is making our cleaning and detailing services available to help you maintain your aircraft.

For more than 50 years we have maintained our fleet of business jets to impeccable standards. Recent expansion of our maintenance facility includes an indoor wetwash rack that will accommodate up to and including a Gulfstream GV.

We will work with you to set up an ongoing program that fits your schedule, or accommodate your individual request as the need arises.

At KaiserAir, employees with jobs that directly affect the safety and security of passengers, flight crews and aircraft are subject to scrupulous checks. A pre-hire fingerprint check and thorough background investigation are conducted. During employment, flight crews and maintenance and line service technicians are tested at random for drug and alcohol use.
